

Run your pharmacy from anywhere.

Real-time visibility. Clinical safety. Zero paper.

Remote Owner Dashboard

Check revenue, stock & staff activity from your phone — even when you are not at the pharmacy.

Drug Interaction Checker

4 severity levels (Minor / Moderate / Major / Contraindicated). Auto-alerts stop unsafe dispensing.

Contraindication Alerts

8 patient status flags — pregnancy, renal, hepatic, paediatric, G6PD, allergy & more — on every tier.

Offline-First Inventory

Works without internet. FEFO tracking, expiry monitoring at 5 thresholds, barcode via phone camera.

POS — Every Tier

Fast point-of-sale for every pharmacy type. Simple POS for ADDOs; full dispensing workflow for registered pharmacies.

B2B Ordering Network

Order directly from enrolled wholesalers on the platform. Available to all tiers when the open marketplace launches.
